Make a Difference!

Dear Educators:

You know how unproductive and challenging behaviors can adversely affect the whole classroom—or even an entire school. Sometimes it seems impossible to find the magic solution to allow your class to function as a healthy, happy community.

But there is just such a solution—my MAGIC SECRET—and I want to share it with you!

I started my school years as a “problem child,” so I know what it’s like to be on the receiving end of constant judgment and limitation. Years later, as a teacher and turn-around specialist focusing on youth at risk, I vowed to treat ALL children as I would have wished to have been taught. It became my personal mission to see that all of my students succeeded. And they did! Children who had, over the years, been labeled *difficult, unmanageable, or unteachable*, suddenly made rapid strides in my classroom.

The MAGIC SECRET involves techniques I developed and perfected—techniques that allowed the many troubled students in my classes to overcome disruptive, negative behaviors and achieve amazing scholastic and social success, just as their peers were achieving. That’s why I say:

**In just 10 intensive, fast-paced sessions,
I will help you master a simple and straightforward plan to create a contagious atmosphere
for amazing academic success for ALL students.**

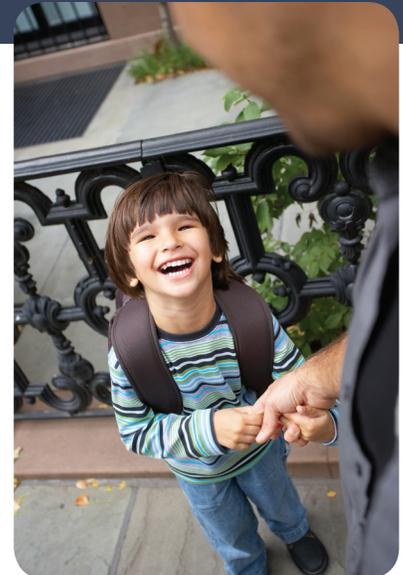

My 10-session **ACADEMIC SUCCESS 101 Independent Learning Audio/MP3 Course** will give you the skills to deal with all forms of difficult and disruptive behavior. It will allow you to create a plan to implement immediately, one that will allow you to see amazing academic and behavioral success for all your students, in as little as one 9-Week Grading Period. In fact, I’ll show you how to diffuse an emotionally charged situation IN JUST 30 SECONDS! You’ll eradicate bullying, depression and suicidal thoughts, while you encourage goal-oriented perseverance, better concentration and free-flowing creativity.

It is magic! And you can put it to work instantly, to give you renewed energy and enthusiasm for the school year ahead. It’s easy to MAKE A DIFFERENCE once you know the secret!

Sincerely,

Mary Robinson Reynolds

Meet Mary...

For 30 years *Mary Robinson Reynolds* has worked to transform people's minds about how best to deal with the challenging individuals—children or adults—they live, play or work with.

As a teacher and turn-around specialist, Mary had a reputation in every school she taught in! She was the teacher every student asked for—and wanted to *work* for.

Now the creator of two *Make A Difference* online movies that change lives for the better, and the author of books such as *Make A Difference With The Power of Connection* and *No Labels, No Limits!* shares with you her System for working effectively and successfully with youth at risk.

Applying User Friendly Quantum Field Theory in combination with the latest Brain Research, Mary will show you what's really going on and what exactly you can do about it to effect a behavioral change in 30 seconds or less in emotionally upsetting situations.

Her *9-Week Make A Difference Curriculum* is comprised of the techniques she incorporated to earn her at-risk students an increase of 2 to 3 years growth on the Stanford Achievement Tests—after they had actually lost ground in previous years. She has worked with struggling teachers to help them achieve test results showing continued growth instead of loss.

Early in Mary's teaching career, her students demonstrated unprecedented levels of measurable success, because she set up her classrooms and teaching techniques and ways to "think" about students and their behaviors, in ways that set her successful teaching style apart from that of other educators. ALL students succeeded in her classrooms, contrary to the belief in the "bell curve" formula that "excuses" some children, allowing them to slip through the cracks and fail (drop out, do drugs, seek crime, commit suicide). Mary has demonstrated success in working with challenged teachers and administrators to dramatically

improve the achievement and self-esteem test results of their students and/or improve cohesion between faculty and staff.

Qualifications: Master's in Educational Psychology Counseling and Development K-12 from the University of Nebraska; demonstrated expertise with every imaginable label-awarded childhood behaviors, physical attributes and learning styles. This includes: Youth At-Risk, Substance Abuse, EBD, Suicide Prevention, GT, ADD, Special Ed, i.e. Intensity, Academic and Behavioral. Extensive experience teaching educators the key to "connecting" with students based on their attitudinal energy, labels and expressed (as well as non-verbal) expectations.

Discover...

THE INDEPENDENT LEARNING AUDIO/MP3 COURSE is designed for:

The educational professional who has already experienced success with teaching and helping children BUT feels that there is still something more that can be—*must be*—done and/or learned on a school-wide and community level.

To view the ISPs, see Workbook page 38: www.AcademicSuccess101.com/Workbook

Certification for Professional Educators outside of TX:

This certificate program, *Academic Success 101 Independent Audio Learning Course*, is designed to meet the requirements for certification in the state of Texas. Each state issues its own state teaching certificate and has its own unique requirements. A state-issued teaching certificate is good only within that particular state, and if an individual moves to another state, he/she must meet the criteria for certification in the new state. Part of this process usually includes taking a state mandated test.

If you are from out of state, you may complete one of our certificate programs and work through your state to become certified. Prior to purchasing this program you are encouraged to compare your state requirements with those of Texas. This information can be provided to your state certification entity so that you can ensure that you will be able to meet certification requirements at the end of the program.

If you would like to see Academic Success 101 Approved for CEU/CPE in your state, please contact Mary with details of Continuing Educational Provider requirements: Mary@MakeADifference.com

Benefits of a 10-Session Independent Learning Audio/MP3 Course:

- Enjoy a classroom atmosphere in your own home. All sessions were recorded LIVE TeleClasses.
- Each session you will hear the examination of how the previous week's strategies applications worked for participants wanting to share and be coached by Mary.
- In an independent learning method, you will build upon each week's immediate application & successes at your own pace.
- At the end of the 10 Sessions, you will have experienced significant and documentable improvements in the areas you most want to work on.
- No Travel Expenses.
- Mary is available for Q&A via her email address, and telephone as necessary to work with individuals seeking additional information.

We invite you to see just how comprehensive this 10-Session Independent Learning Course will be.
